

Bar covers

for existing pools and pools under construction

Mambo

**Summer and winter,
cover your pool in safety**

Mambo

Mambo is simple to use

Simply pull on a strap to roll it out.
Roll it up without stress or strain using a crank.
No complicated mechanisms, no risk of breakdown.

Mambo is practical

A single cover to install for years of care-free enjoyment. You escape the nuisance of seasonal cover changes and the drudgery: cleaning, folding and storing the cover removed unfolding and installation of the other cover.

Choose comfort, choose Mambo.

Mambo is easy to keep

With its two lacquered surfaces, Mambo stays clean, it is easily washed down with a blast of water.

Mambo is harmonious

To improve the cover's visual appeal, the bars are lacquered (apart from the grey bars which are anodised) and coloured to match the cover fabric, a PROCOPI exclusive.

MAMBO is available in 4 colours: blue/beige, green/beige, sand/beige and grey/beige.

The underside of the cover is always beige to prevent staining that could occur where the fabric is in contact with the coping.

Mambo is strong

Mambo comprises a UV treated, strong (610g/m²) hard wearing polyester fabric membrane. The cover fabric continues underneath the bars for enhanced mechanical strength.

This strong membrane is lacquered on both surfaces to withstand wear and tear, physico/chemical attacks and the weather. Extruded aluminium bars strengthen and stiffen the cover so that it would not be damaged by a child falling onto it.

Mambo covers feature eyelets the same colour as the cover along both lengths to allow the attachment of bungee straps (optional) in regions that experience strong winds.

The cover comes with a fastening kit and a crank (a second crank is provided for covers wider than 4.90 m).

Mambo is a lacquered cover reinforced with aluminium bars. It rolls up and out easily to secure and protect your pool.

A motor drive system is available as an option.

Fast and seasy to use, a cover over a 10 m pool can be rolled up in 45 seconds.

Winter kit *(designed to withstand the weight of snow)*

- Inflatable floats made of 50/100 thick PVC with a valve for inflation and eyelets for attachment.
- 2 floats for pools less than or equal to 4 m wide.
- 3 floats for pools more than 4 m wide.
- Straps and attachment fittings.
- 1 foot pump.

Legal information

Mambo complies with the French standard NF P 90-308 (May 2004 version concerning pool protection) in as far as all the components of the cover are provided by PROCOPI. A safety cover for pools intended to deny children under five access to the pool. This cover is no substitute for common sense or individual responsibility. Nor is it intended to replace the vigilance of parents and/or responsible adults which remains key to ensuring the protection of young children.
